

ben knize

DESIGNER/DEVELOPER

Front-end developer with 5+ years experience designing and developing UI/UX for enterprise web apps and eLearning. My background in traditional print and digital media authoring informs my experience in technical architecture, complex use cases, and modern software workflows.

2018 / NOW UI/UX AND FRONT-END DEV @CSE Software

I'm designing, prototyping, and developing front-end solutions for enterprise-scale web apps. I'm also mentoring juniors, writing standards, and picking up devops as I go.
